

## ADACO ECLIPSE™ : ADACO'S HOTEL SOLUTION

*For food-service operations: manage procurement, inventory, recipes, menu costing analysis, reporting...*

In the hospitality industry, day-to-day efficiency is critical to success. Adaco's Eclipse™ suite of tools is the result of years of effort to address issues specific to the foodservice and hospitality industry. Eclipse achieves efficiency by controlling procurement, materials, recipes, forecasting, production, sales, and more. Eclipse not only automates your food and beverage acquisitions, it controls non-perishables like stationery, guest amenities, housekeeping, and other consumables. Eclipse is a universal procurement system, with dedicated modules that address every aspect of your business.
