

ADACO EDGE™: YOUR TOTAL FRONT DESK SOLUTION

A property-management system for controlling front-desk operations and accounting...

Adaco Edge provides a user-friendly, yet state-of-the-art property management system designed for day-to-day use by all types of hospitality industry operators. The Edge fully integrated software solution combines powerful, but flexible features to give your staff complete control over reservations, registrations, check-outs, guest accounting, folio archiving and city ledger activities. Edge's interfacing capabilities allow full connectivity to your own Point-of-Sale and Back Office inputs as well as to other databases - internal or outside-hosted. And, with its ability to track and accumulate guest profile data, Edge can also produce invaluable statistics and reports to help you more successfully target your marketing efforts.
